The Festival

Buffer Fringe Performing Arts Festival showcases new and experimental work by local and international artists, challenges physical and artistic barriers, and creates opportunities for artists to meet and exchange ideas. It questions preconceived ideas of the performing arts, the relationship between artists and audience and shines a new light on arts and society. The festival favors innovative work, artists who take risks in their work and constantly look for new ways to express themselves.

The Festival's programming offers both local and international artists a platform to showcase their work and is organized in a way that artists can meet and interact both amongst themselves and with the audiences in a true celebratory spirit of multiculturalism and peaceful coexistence. Taking place in a divided country, Buffer Fringe Festival assumes more responsibilities than an arts festival taking place elsewhere. It is one of a kind in Cyprus and the world.

Festival Theme ?Breaking Point?

In an increasingly divisive world and an environment of social upheaval, we are looking for artists and artist groups who not only engage in a rigorous critical-aesthetic discourse to explore the limits of their art forms, but for performances exploring a socio-political narrative and expressing the urgent matters of our times.

For this year's edition of the festival, we particularly welcome performances that deal with the concept of a 'Breaking Point', exploring the theme on a broader social, global, or very intimate and personal level.

«Breaking Point»

The point at which a situation becomes critical, the point at which an entity gives way under stress, or the point at which something loses its force or validity.

We are looking for all forms of experimental performance work and physical- visual- and devised-theatre formats, which can contain (but are not limited to) drama, music, dance, acrobatics, installation/visual art and other cross-disciplinary elements. We are particularly interested in participatory, durational and/or site-specific formats. While we accept performances in all languages (surtitles in English must be made available), we also encourage work that does not exclusively rely on language.

[i] Home for Cooperation is a shared cultural space located within the UN buffer zone in Nicosia, Cyprus. Our work is stimulated by our vision of a multicultural society in Cyprus, in which all cultures co-exist without any segregation in any aspect of life. To this end, we are constantly working on creative ways to initiate interaction and communication between the communities of Cyprus in order to weaken the stereotypes and misperceptions about the 'other' that results from the existing divide that has been in place since 1974. We believe that art and culture are among the most influential tools for positive change, confidence building and reconciliation. Accessible to all communities in Cyprus regardless of their nationalities, we take pride in the inclusiveness, quality and innovation of our projects.
